APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change manner of use and place of use of the waters of unnamed (SP) spring heretofore appropriated under claim of vested right as evidenced by Proof of Appropriation of Water 01582 is issued with the understanding that no other rights on the source will be affected by the change proposed herein. A substantial headgate and measuring device must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water under this proposed change at any and all times. This permit is issued subject to any determination of the waters of unnamed (SP) spring that may be made under adjudication proceedings under NRS 533.090 through 533.320.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.77 cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before December 22, 1987

Proof of completion of work shall be filed before January 22, 1988

Application of water to beneficial use shall be made on or before December 22, 1990

Proof of the application of water to beneficial use shall be filed on or before January 22, 1991
